# HALL 1

## GROUND PLAN

# HALL 1

## INFO

The former parcel distribution facility is considered the location's hallmark site.

Because of its elongated shape (with a slight bend), it is also affectionately referred to as the "Banana Hall".

# HALL 1

## USE

An elongated structure with a slight curve in the forward quarter; we affectionately refer to Hall 1 as "Banana Hall".

It offers some surprising perspectives, can be conveniently subdivided and is sufficiently high enough to realize multi-story installations.
